MARKET LEADER IN EUROPE

We are Europe's market leader in digitally printable textiles for visual communication. Furthermore, we are the leading distributor of sublimation transfer paper, calender belt protection paper, and DTF transfer media.

WORLDWIDE DELIVERY FROM OUR OWN STOCK

Thanks to a global distribution network and our own stock, we can respond quickly and accurately to our customers' needs. We have our head office in The Netherlands, with branches in Germany, France, the UK, and Italy, as well as agencies in many other countries. We are proud to serve satisfied customers in over 60 countries worldwide.

OWN PRODUCTION, CUTTING, AND CONVERTING DEPARTMENT

We boast a unique combination of stock, distribution, and in-house production processes, including a state-of-the-art cutting and converting department. As such, we can offer customised solutions quickly, efficiently, and at competitive prices.

YOUR SUSTAINABLE PARTNER

For over 28 years, we have provided extensive experience in textile and transfer printing. We lead the way in providing innovative, sustainable, and low-cost print media solutions. TTS is all about long-term relationships with customers, suppliers, and other business associates.

TTS ACTIVELY INVESTS IN A SUSTAINABLE FUTURE

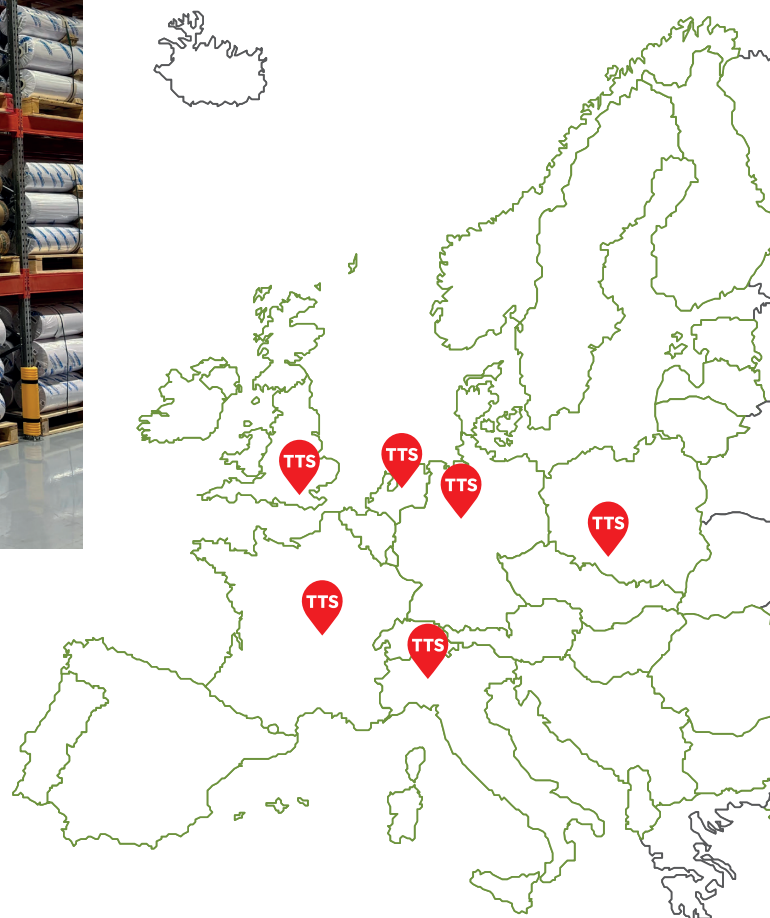

TTS invests in sustainability and has made significant progress in developing eco-friendly fabrics, sustainable printing services, and raising awareness of CSRD.

- TTS is located in an energy-neutral Headquarters (**Energy Label A+++**) with **600 solar panels**.
- TTS offers a GRS certified recycled option for every fabric; the **TTS Green Textiles** range.
- TTS continues to investigate options to recycle their products, such as through their **Circular Recycled Strip** and **Textile Recycling Service**.
- TTS actively informs customers about **recycling options, fit-for-purpose textile solutions**, and the **CO₂ impact** of the different available choices.
- TTS **minimizes packaging, reuses packaging materials** where possible and **separates all waste streams** for recycling purposes.
- TTS has **introduced SEAQUAL®** display fabric and **CiCLO®** flag material. High-quality solutions that combine premium performance with a strong sustainability message.
- TTS introduces a fully PVC free range of outdoor textiles called **TTS SOLAR** fabrics.
